

Malone March 17th

Dear Bro

Your letter of recent date is at hand and in reply to the steers they have grown finely and are in excellent condition very good beef and had no extra feed only good hay. The off one is a little larger than the rear one having longer legs and little longer body. But the smaller one is master regardless of all these and I think will be as heavy & as large as his mate when he gets his growth. The smaller one is the first calf of a three year old heifer and doubtless will not get his growth
