San Francisco, Wed 14th 1886

My Dear Sister

Your last letter was received by me one week ago on my arrival from the South and then I thought I would answer at once but I was called away again and so you were neglected but now I will try and pen a few lines to night - for I will be off again tomorrow and will not be at home much for a month. Mother and children are very well did you know that Belle Rust from Burke was living with us her son here since last fall we pay her 15.00 per month for doing our house work and she says this is more than she could earn back then teaching school.
