

Montpelier Oct. 20. 1857

Dear Sir

So far as I have heard opinions expressed among the members of the Legislature in relation to the new design, they have been highly commendatory. All seem pleased with it, & so far as I can judge, the work thus far on the House gives general satisfaction, & as yet I have seen no symptoms of opposition to the necessary appropriation - neither do I believe there will be much.

The tinted copies of the perspective of which you speak, I suppose I have, though they are but little changed from the plain ones. I will send you one as you request.

In haste

Hon. Geo. F. Marsh

J. C. Powers
