

## Aegis One, Competition Zero

Looking for affordable speakers? The **Aegis One** is ready & willing to take on all challengers. There is simply no other speaker in its price range that can match the crisp, clear, natural sound of the Aegis One. Bottom line, the **Aegis One** sounds like live music, not a speaker.

"If I hadn't known it costs just \$299/pair when I first heard it, I would have estimated its price was at least twice that. ...the Aegis One is an astonishing value. Highly recommended."

DAVID: Twenty years into this epidemic, we still need to get the message out that HIV is not a disease of gay white men, that it is not a "city" disease, and that, however helpful the new medications may be, this crisis is not over. If this test helps bring more people in to be tested and to recognize their own risks for HIV, than it will have performed the service for which it was designed.

AMY: I think the perception [about who is infected and can be infected] is changing, particularly when I look at the people who walk through our doors at Vermont CARES. They seem more and more to reflect the diversity within our communities.
