

Barony of All Vermont Barony of All Vermont

The Barony of All Vermont is a nonprofit organization that raises money for other non-profit organizations in the state of Vermont and some surrounding counties of New Hampshire. The organization supports diversity in membership welcoming all GSLBTQQ. We are a part of an international organization called the Imperial Court System that includes members from all across Canada, the United States, and Mexico. The court system has been in existence for 40 years and has raised several hundred thousand dollars to give to non-profit organizations that, in turn, help individual communities. The organizations we choose to give the money are as diverse as our membership. Our primary purpose is to raise money. Our secondary purpose is to demonstrate to the general public that diversity is not something to fear. As a result of our fundraising activities there is a third function of the Barony of All Vermont and that is to have fun. We raise money in a variety of ways and always have fun doing so.
