

Waterville

May 29 1737

To my long lost friend R

I receive yours last Tuesday read it with much  
pleasure was glad to hear that you was in the  
garden of Eden and had not gone to the South  
for I think that I shall have the pleasure of hearing  
from you and perhaps seeing you this  
summer -- as for my health it is about as it  
was the forepart of the Spring the last of  
April I went and see the Doctor he gave me  
a puke and said he had gave me enough over  
four men to take me then gave me some  
physick to take if it did not operate down  
and I was obliged to take the physick --

I suppose you want to hear from all the good  
folks here Mary I has took your old habitation  
this summer - Carmoline has got a fine

Daughter and I must inform you  
that Edmund talks of getting Thomas

Thomas to teach the school here in this district,  
I expect you will want to hear from

C Colton is well and Mr Polars people have  
got her a new Cloak and Bannet --

Joshua Carpenter returned to his sweet  
heart.
