My dear Sister;

I have thought for a long long time that I would write to you again & see if I could find out why it is we do not hear one word from you, but with my numerous cares & find it almost impossible to write. I see you have been to visit - Matt & I do think you might find time to write me a word now & then.

Your mother said you would write me on my return & after waiting in vain for a letter I sat down & wrote you Edward also wrote you & we have never rec. a word of answer,
