

San Jose Nov 25th 87

My dear Sister

Marietta has been after me many times of late to get me to write you for she like most of mothers doing her own work has but little time to attend to correspondents - I came up from San Francisco last night and will leave again in the morning for Stockton and Sacramento to be gone a week or two and then I will return and take a short trip South just long enough to use up the time between then and the Holy day for I must be home then or the little ones wont know
