Holo Katie

I would like very
much to see here from you once more
before school is out, and have you
write me how the scholars get along
this term and if any body has lost
their hat yet and if they have
how did they come out of mean did
the prof come around and wrap
on the door. Prof Tenil come here
last night and wrapped after I
had gone to bed and chum
told he that if it was any of the
profers they had better go home and
do the same. Dole any of the boys
cut up, they filed up the prof
Key hol with sleds and tack here
and he did not get out for a day
