Saw Journal Nov 12th

My dear Sister [Emilia F. Cook]

Yours of Oct 31st came

to hand duly and I hasten to
reply I regret much to hear of your
illness and trust it will be of short
duration My principle object of
writing you at this time is a
matter of business for my Grocery
house in San Francisco I suggested
to them a few days ago the idea
of their importing their own Maple
Syrup direct from the Orchard so
we can be positive of getting it
fine and choice Now what I want of
you or caring is to let me know
at once whether any of your Sugar
makers make a specialty of making
Syrup and what it can be furnished
at by the Gal put up in Bbls.
