Miss Katie

I send you the basque with the trimming basted on so you can see if it is right or you may suggest something else. That is all the trimming there is. there will not be enough to go around the bottom as you spoke of having it, and have enough for the sleeves. And how do you want it put on the sleeve in the form of a cuff or fullid on and come down over the sleeve please write me a line to let me know just how you do want it. The skirt is done and the basque all done but finishing. I can not make a standing collar of the trimming but could make one of the muslin or a flat collar of the trimming

Yours truly

Mrs G. D. Cleveland.
