

Vermont Capitol,

SUPERINTENDENT'S OFFICE.

Montpelier, August 16, 1858.

Hon. Geo. F. March

Dear Sir,

Agreeably
to your request, Mr. Richards has
applied to Mr. Lilloway for an
explanation of the dome curve, &
as he refuses to give him any, I
know of no way but to ask for
instructions from the Commissioners &
As Superintendent of the work, I am
required, very properly, to follow such
plans as may be agreed upon & furnished
me by the Commissioners. This I am
anxious to do, & only wait to be informed
whether the plan of the cupola &
dome which I have in my possession
is the one adopted by them & intended
for my guidance. It will give me
pleasure to meet you at Burlington
for consultation upon this subject
