

No. 673.

Smithsonian Institution,

Washington, D. C., March 10 1860

Dear Mr. March

I will write No—
whenever it is, to you if I choose
and I do choose, especially as
I wish to say that as there are
no descriptive works on entomol-
ogy at all available for
American specimens, of the
young lady of whom you speak
will send me her insect
assorted I will have them
named for her; at least I
can do this for Coleoptera,
Orthoptera, & Lepidoptera, &
I will give her names of ex-
perts with whom to con-
sult. If she sends any
things, each order should
be pinned in a separate box
Copy of report will go off
in a day or two.

Just I know what
