

Brattleboro May 12 1858.

Dear Geo. P. Marsh,

Dear Sir,

I received a

letter from Thomas C. Jones last evening in which he says I have seen the commissioners to day and by their advice shall accept your proposition for the execution of the figure for the dome. I shall expect it done ~~to~~ the acceptance of the commissioners and with proper dispatch. Mr Marsh will confer with you in relation to it and give you such direction and advice from time to time as he may see fit. I think you are mistaken in your recollection of the proposed height, though upon that point you will consult Mr Marsh."

Ever truly yours
