

Brattleboro June 10 1858

Geo. S. Marsh & John N. Pomeroy Committee
Gentlemen Sir,

I see by
today's Springfield paper that the remains
of Ethan Allen have been found "beneath
the place of the old tomb stone"

I write to have you secure me a cast of
the skull if any has been taken, If not
perhaps it would be worth while for me
to come up and make the cast, as there
is so much talk about his monument and
statue, I think it is important that I
should have the cast if any one.

My model is growing gradually and I
am in hopes it will be quite satisfactory

I hope I may hear from you when convenient
Respectfully yours
Sabin J. May Jr.
