Mr. Marsh My Dear Sir. I learn that a project is on foot to have you invited to Montpelier to endorse a dome that is to be drawn out full size on the Hall over the depot. Some time ago I informed you, that amendments were proposed by Mr Richards. As near as I can learn, he and Powers are now at it, trying to fix the thing up to suit them. They are in great trouble to get the thing as they want it. Not content to take my drawings, and let them be executed they are attempting to alter the sweep or rise. I make this assertion for the following reasons. 1st. I made with my own hands every drawing for the work in full, with every detail full size. I made them precisely like the perspective. 2^d, I have it from Head quarters that Richards found fault with the rise and sweep
