

Boston Feb. 10 "1859

Mrs Marsh

I am enabled to-day for the first, and in fact only time, to send you a copy of Tom's Pamphlet. They are exceedingly scarce. You will I trust excuse me for the delay when I tell you that I have never yet owned one, and have had one only two days in all, you are quite at liberty to use the one I send, as you may desire, as I have the promise of one from Bradley. I have completed my statement, and a part of it has been published in the Burlington Times. I shall let Clark take the same type and publish a two column pamphlet. I gave him orders long ago to send you the numbers of his paper, and I hope he does so. If you do not get them please do me the favor to let me know immediately. I think my "statement," will put things in a good light as I have carefully refrained from low or dirty flings at Tom or any one.

The only thing in his document that I have for a moment feared the influence of was some of his affidavits. I will not trouble you now with information concerning them but will simply say that Bryant's, and Randall's were made in Mont. and during the sessions of the committee. Flanders was there, went back and made his affidavit
