

00018
My dear friend
I have Nov 9th 1868

The friend of yours of 6th Nov yesterday
Mr. Mayton is I believe a first-rate
dentist. He is an organ of a force, and
has given general satisfaction. My
daughter has had several teeth filled
by him and likes his manner of
working very much. He has a magnifi-
cent case of instruments and he
makes sets of artificial teeth
changes & repairs a filling and ap-
pears to have plenty to do.

I am glad that my sons continue
to be true to the sanitary principle
to which you are also very glad
to be true of it. For my part I have
sent two valuable works - a bust
of a natural sign of Washington
& the Fair in Philadelphia which I
think a very good one and a bust
of my sister by the same Fair
Boston not yet arrived out -
Both will make up the sum of \$1000
for Anne -
