

Flournoe March 1st 1864-

My Dear Frena March-

I rec'd your letter about the property which An Hale wanted for his church - and which might - in part - serve for my purposes -

I did not expect that you could do any thing officially - and in another letter I said as much - You have acted in a manner quite just and perfectly satisfactory and I thank you much -

I have just heard that my son has been writing to you about an affair of his own - and very foolishly - He did not consult me about it and perhaps you would have been spared receiving his communication -

He is a good boy in the main but gives me much trouble - He has not yet earned his own living and yet talks about getting married - I have set my face against the whole of it -

With most affectionate regards, I am yours ever,
Hiram Powers -
