Dear Maria

I got your letter containing the Check yesterday, and it was very acceptably received as the Ten you sent me before was about used up -

I am getting along very well and this morning got up and put my cloths on and went out to the Breakfast Table. I am intirely free from Fever but the jaundice is hold of me and the doctor say he never saw any one worse or more yellow than I am I come out in blotches, all over and O. has I itch and I have to use the salt
