Dear Maria

I rec^d your letter last night stating you had rec^d the package of money but that it only contained \$360 instead of \$480. I am perfectly sure that I put \$480 into the envelope and sealed and directed it while in the office of the U - Co - I rec^d of the government \$584.00 and paid from that debt to the amt of \$40 - that I was owing in the Company. just before I started to go to the U - office I counted the money and found it all right there being \$540 left but while at the office I took out \$60 for my use here and counted the remainder to be sure it was right and found it so there being \$480 without the least possible doubt. Now the question is where has the \$120 - gone to and how am I to recover it? I sent you the receipt the Co gave me and presume will have to have it here in order to show the agent
