Dear Sister I have just  
rec'd your letter that you wrote at  
home I heard that you had wrote  
to me before but I did not get  
it I am glad that the folks are  
well at home I am well but dont  
feel well I am about tired out for  
the want of sleep and rest I  
saw Gynan last Tuesday he was  
not well or down sick they come  
back to rest and I dont know how  
he is Our Brigade was relieved by  
the one he is in last night but there  
is no chance to visit it has to be done  
after dark and as still as possible there  
is but little danger on the part of  
the line we go out we walk across  
the field as we choose after dark but before  
we it is dangerous to show a head above
