

I will send you a few more rebel needles for fear you would get out of needles!

Sunday Feb. 29th

Dear Sis.

I take my pen again this pleasant sabbath morning to spend a portion of this dearly prized day in writing to you; how many times I think of the many pleasant days I have passed in little Elmore in going to the house of worship and there listen to the preaching of our Dear pastors; but such days are gone with me for the present; If I have an opportunity of hearing a sermon from any of our Chaplains it doesent seem but verry little like going to the old Church and there listen to the reading of the scriptures; the singing of his praises &c, there is rarely nothing to encourage the Christian onward - but much to draw him from the right way.
