

Letter No. 13

Va. Nov. 21st / 63

Dear Parents & Brethren; I have at last got time to write to you once more. I am an idiot now & they have kept me so busy that it has been some time since I wrote, than I mean it shall be when I can help it, I suppose you have been looking for a letter for some time, my health is getting to be quite good now, I have not fairly got my strength yet, but I have got some bitlers that I am taking now that helps me, you did not understand what kind of a fever I had. Instead of the ~~sherrimatic~~ fever it was the remittent fever, the Dr. told Pra that it was the typhoid fever I had, I suppose the remittent fever is a light form of the typhoid. the Dr.'s name (that had the care of the hospital)
