Dear Sister —

I reckon you will begin to think I'm writing pretty often, every day now for the last three or four days; but to night I have business, which is the reason of my writing. I got a Paymaster's Check (like the one I sent before) & thought I would mail it & have it out of the way or I might lose it having it carrying it around in my pocket. — I rec^d \$426. all told, & send a check for \$350, payable to Father's order, I suppose he can use it somewhere. This brings our pay up to March 1st 1863, so you see that when we come home (July 25th, gulf that bound to be so) we shall have nearly five months pay due us. We shall not probably receive any of it until we get back to Brattleboro, as at longest, the time is less than three mos. now. Our Co. took checks of the Paymaster to day & the amt of \$3,600.
