My Darling Wife -

I got yr letter yesterday & was delighted & relieved. I think I should have telegraphed to Mother after the mail got in yesterday if no letter had come. It was just a week since I had had one -

How cozy & warm you must look in that cloak. I want you to go right down & have a little picture ^{taken} with the cloak on to send me. I guess I shall like it as you know best what is best.

What wonderful preparations for babies -

Should think it came natural to you -

Guess you had better keep at it after you get your hand in - I should like to see you darling - I will write as

often as possible when - - Will you write to me when I do? Am glad to have

you talk so about my being present. Of course I would be glad

to - on account of the danger. But it will be impossible probably - But if you are

very careful & prudent. I guess you won't be very bad. I do hope not -

Am very sorry to hear such accounts
