My Darling wife

I received two letters from you yesterday & one had the most splendid thing in it I ever saw. I thank you a thousand times my own sweet angel for such a splendid picture. Seems to me it is about the best one I ever had of you. You look elegant in your furs. They are becoming. And they make you look so comfortable. Am real glad you got them. How do you know what to get so well always!

I guess I have got the most wonderful wife in the world.

Reckon you will have to be weighed on the hay scales next time. Could I hold so large a wife as you now? Darling I am
