

Liaisons *continued*

investigator or reporting an incident of discrimination, please contact Keith.

5. Governor's Medical Ethics Commission. Concern has been expressed to Governor Kunin that there is no representation from the lesbian and gay community, and poor representation of women in general, on the Commission although issues specific to the community are agenda items. A list was submitted to the Governor of possible candidates for addition to the Commission.

Governor Kunin has acknowledged receipt of our concern and forwarded it, and the list of candidates, to Commission Chairperson C. Wenneberg. At this time Ms. Wenneberg has not acknowledged this concern, nor has she made any effort to return messages or calls.

This concern will be restated to Governor Kunin in the next liaison report along with our disappointment with Chairperson Wennberg's lack of response. The liaisons will also investigate other avenues of input to the Commission.

In addition to specific Coalition business both liaisons will continue to advocate for the interests of the lesbian and gay community in our other activities; Heather as a Commissioner on the Governor's Commission on the Status of Women and the joint Department of Education and Health's Task Force developing A.I.D.S. curriculum, and Keith as a member of the Agency of Human Services and Department of Health A.I.D.S. Task force and the Department of Health's Citizen Review Panel.

If there are concerns people would like relayed to Governor Kunin in our bi-monthly reports or more information on activities, please do not hesitate to contact either liaison. It is only through continued input from the community that we can truly represent and advocate concerns and needs. To the existing underground network of information and gentle coaxing, we give an appreciative thank you.
