

## Attention from page 1

who are willing to learn desk top publishing on MacIntosh computers and spend one Saturday a month doing layout. No layout or graphics art experience necessary! In fact we are looking for a new layout coordinator, we are losing our present coordinator.

You must act now! We don't know how long the layout staff will last and without them- the paper does not come out! Call 865-9759 evenings to find out more about layout.

7) Photos/photographer- Whether you are a professional or hobbyist, we need pix for the paper. Or even if you don't own a camera but are willing to spend some time hunting down current events photos, we could use you. You don't have to live in the Burlington area to do this job.

8) Envelope stuffing/subscriptions/distribution- this is the last job before the paper gets to you. We need someone willing to coordinate statewide bulk distribution. (different from subscriptions) We already have a mailing list we just need someone to mail the papers.

We need people to help stuff subscription envelopes every month. Don't have anything to do the last Friday of the month? -Come join our group and have a fun time in a relaxed atmosphere.

People we know that you are out there- we know that you read the newspaper. Where else in this state can you get comprehensive 1/g natl news, 1/g Vt politics, reviews and a nearly complete 1/g calendar of events?

To kick off this new publishing season and to christen our office we are having an Open House at our office, 30 Elmwood Ave, Burlington from 7:30-9:30 pm on Friday, October 6th. We would like you to join us in celebration. Think about it, act on it, join OITM!

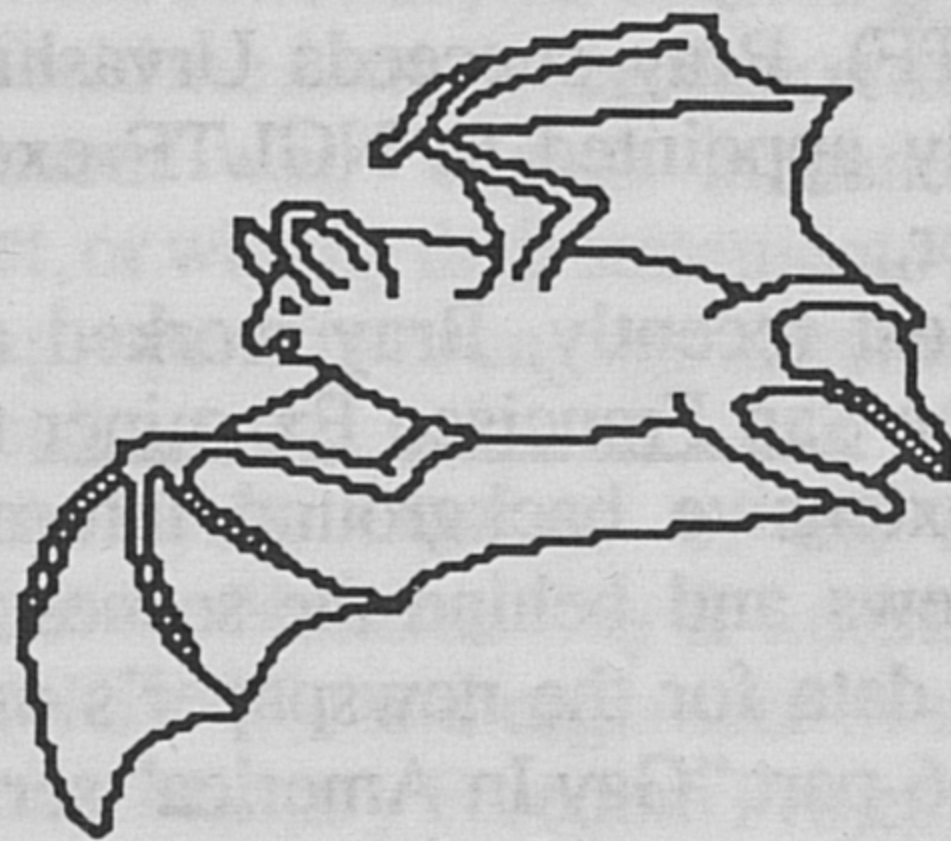

## Maintaining from page 1

A DPA/HC is an easy legal document to obtain. The help of a lawyer is recommended, but is not necessary. The document can contain general or specific instructions about what sorts of treatments you wish. It is recommended that you notify certain people about your wishes, including the person that you designate as your agent. Also, a doctor can help you understand the issues involved and specific medical treatments and procedures. Finally, although not required, talking with family members about your choices may help avoid disputes and misunderstandings. Of course, telling family members about a DPA/HC also may mean coming out to them.

Perhaps one of the most difficult things to do in our lives is to face our mortality. To realize that this body and mind will one day not function at the same healthy level it is today, is to accept death as being part of nature. And to realize that an accident could happen when it is least expected, propels us to consider the implications. What do we need to do in order to be treated according to our wishes? A Durable Power of Attorney for Health Care is one step in ensuring our wishes are met.

The address of the Vermont Ethics Network:

102 South Main St., Waterbury, VT 05676 (802)241-2920.
